

March 2025

**VMFA-542 Tigers Ordnance Loadouts**

By no means all-inclusive, the loadouts below were primarily compiled from in-theater photographs and the squadron's monthly squadron reports and is provided to show some of the known loads used by VMFA-542 during the Vietnam War. Some of the loadouts shown were not common. The Mk.82 bomb was the most used ordnance, both being used in either low drag ("slick") or high drag ("snake-eye") configurations. Fuze extenders, primarily 36" extension, known as "daisy cutters" were also occasionally utilized on the bombs.

The twin LAU-33 5" Zuni rocket pods and the Mk.20 Rockeye were both first used by VMFA-542 circa April 1969.

Although the AIM-9B variant is shown (common), the AIM-9G may have also gradually appeared in use.
